

## BIOSTAR® **5**-YEAR WARRANTY

Your Biostar® has a five-year warranty that covers all parts and labor, provided Great Lakes pellets are exclusively used. This warranty does not cover any Biostar that has been misused, abused, modified, tampered with, or damaged by fire, water, or dropping.

Should your Biostar need service while under warranty, don't worry, we'll send you a free loaner. In fact, our loaners are free even after your warranty has expired—you just pay for shipping.

For optimum results, we highly recommend that you use Great Lakes thermal-forming materials.

**WARNING: Warranty void if other than Great Lakes pellets are used.**

## BIOSTAR® **5**-YEAR EXTENDED WARRANTY

Get peace of mind with the Biostar® 5-Year Extended Warranty. This warranty extends your current warranty for five additional years, providing you with 10 years of worry-free operation. So, if your Biostar ever needs to be repaired, parts and labor are covered.

To take advantage of this offer, the Extended Warranty must be purchased *before* your current 5-Year Warranty expires. The Extended Warranty does not cover any Biostar that has been misused, abused, modified, tampered with, or damaged by fire, water, or dropping. Also, warranty will become void if other than Great Lakes Pellets are used.
